

Transform Your Security Strategy with ESET

UNVEILING THE FUTURE OF CYBER PROTECTION

Dear,

We know cybersecurity isn't just about software – **it's about service, trust, and protection you can rely on.** That's why we partner with ESET, who have been pioneers in prevention-first security for over 30 years.

Curious about ESET? Discover why we partnered with them and how they can redefine your security strategy:

Exceptional Service

UK-based technical support with an average wait time of under 16 seconds

Over 90% of issues resolved on the first call

Support team boasting over 100 years of combined experience

Industry-leading <6 minutes Mean Time to Respond for Managed Detection and Response — the fastest globally

Wide Coverage & Flexibility

Renowned for expertise with 600+ dedicated analysts monitoring threats 24/7

Multiple solution tiers tailored to your specific risk profile

Offers both cloud and on-premise deployment options

Leading Expertise & Threat Intelligence

Protects a broad range of operating systems including Windows, Linux, and MacOS

Named European Vendor Cyber Security Blog of the Year 2024 with millions of subscribers

Real-time telemetry from 110 million sensors worldwide feeds directly into ESET's protection services

Prevention, Protection & Education

Multi-layered solutions focused on preventing cyber threats before they strike

Cyber Awareness Training designed by experts, helping to 'Train the Target' — pending NCSC accreditation

Provides both endpoint security and Managed Detection and Response (MDR) suitable for all company sizes

Trusted by Thousands Worldwide

Over 500,000 businesses globally, including 70,000+ in the UK, rely on ESET

Partners with governments and law enforcement agencies, trusted by those you trust

We're proud to bring you the power of ESET's technology combined with our expert support. Together, we'll help you safeguard your business — so you can focus on what matters most.

Get in touch today to learn how ESET can protect your organisation.

Kind regards,

Marc Rose
